DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1, 3, 6-12, and 18, drawn to a control card check which is a wireless, digital device with a system and method for accessing individual financial records for bank and credit card customers, classified in class 235, subclass 379.

Group II. Claim 2, 13-17, and 19, drawn to the structure of a card reader with a network frequency 900/1900 Mhz GSM of mobile satellite network system having 1500mAH Li-Lon rechargeable battery, an interior antenna, and Intel Strong Arm 144 MHz processor, classified in class 235, subclass 380.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group I has separate utility such as the claimed control card check which is a wireless, digital device with a system and method for accessing individual financial records for bank and credit card customers does not require the claimed structure of a card reader with the specific network frequency 900/1900 Mhz GSM of mobile satellite network system having 1500mAH Li-Lon rechargeable battery, an interior antenna, and Intel Strong Arm 144 MHz processor. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2876

4. A telephone call was made to Mr. Moreno on 9/24/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
